

ANZSNM 2017 POSTERS

- | | | |
|-----|-----|---|
| 101 | P01 | Incidental Renal Cell Carcinoma Detected by F-18 Fluorocholine Positron Emission Tomography
Yu-Hung Chen, Tzu-Chi General Hospital, Hualien, Taiwan |
| 105 | P02 | I can't believe it's not eggs! A Quality Improvement Investigation for a New Gastric Emptying Study using Rice Idli
Mark Dobson, Bankstown Lidcombe Hospital |
| 113 | P03 | Incidental finding of an intrathoracic stomach on a Meckel's diverticulum scan
Amanda Cahill, Prince of Wales Hospital |
| 116 | P04 | Granulomas in F18-FDG PET
Divya Srivastava, The Townsville Hospital |
| 119 | P05 | Validation of [18F]-GE180 for Clinical PET Studies of Neuroinflammation
Soren Lummis, Royal Brisbane and Women's Hospital |
| 120 | P06 | Radiochemical Feasibility of Mixing of TC-99M MAA with Omnipaque Contrast
Hian Liang Huang, Singapore General Hospital |
| 123 | P07 | Role of 99mTc-ECD Brain SPECT in the Diagnosis of Patients with Suspected Cerebral Autoimmune Involvement
Tahereh Erfani, Westmead Hospital |
| 124 | P08 | The Value of 99mTc-MAG3 Renal Scan with SPECT CT in a Paediatric Dual Renal En Bloc Transplant
Chong Chew, Royal Adelaide Hospital |
| 129 | P09 | Atypical for Prostate Metastasis
Simone Culleton, Sir Charles Gairdner Hospital |
| 130 | P10 | All that glitters is not gold- false positive MIBG uptake in adrenocortical carcinoma
Frances Calabria, Prince of Wales and Sydney Children's Hospitals |
| 133 | P11 | GA 68 PSMA Avid Fracture Of The Vertebral Body
Shankar Vamadevan, Nepean Hospital |
| 139 | P12 | The value of 99mTcMAG3 SPECT/CT in the investigation of suspected post renal transplantation urinomas
Jo Galea, Westmead Hospital |
| 148 | P13 | Members Only: The Value of Pre-operative Sentinel Node Localisation in a Patient with Penile Cancer
Melissa Mikutowski, The Wollongong Hospital |
| 149 | P14 | The value of changing Ventilation/Perfusion (VQ) technique in patients with Congenital Heart Defects (CHD): A Case Study
Renee Praehofer, Royal Adelaide Hospital |
| 151 | P15 | A case of Melanoma pseudoprogression after Pembrolizumab treatment
Dhruvbhai Patel, Sir Charles Gairdner Hospital |
| 152 | P16 | Improving Staff Morale: A Prospective Study of Employee Job Satisfaction Within a Nuclear Medicine Department
Brittany Robinson, The Royal Brisbane & Women's Hospital |

155	P17	Comparison of 18FDG-PET and EBUS in the Nodal Staging of Patients with Pulmonary Malignancies Josh Eschebach, Westmead Hospital
156	P18	GA 68 PSMA Avid Peripheral Nerve Sheath Tumour Shankar Vamadevan, Nepean Hospital
157	P19	GA 68 PSMA Uptake In Paget's Disease Shankar Vamadevan, Nepean Hospital
158	P20	Pancreatic uptake on Ga68-DOTATATE in a patient with a known history of renal cell carcinoma Stacey Skalkos, Liverpool Hospital
160	P21	stress is best - A quality initiative to show the benefits of stress only myocardial perfusion scans (MPS) Linda Shaw, The Wollongong Hospital
164	P22	Adhesion of [99mTc]TRODAT on plastic syringes. Evaluation of the degree and location Meaghan Johnson, Royal North Shore Hospital
166	P23	Solid Target Produced isotopes at Austin Health: 5 Years of Experience Henri Tochon-Danguy, Austin Health
168	P24	Iodine 131 Therapy Case Study: It's Complicated Jacy Lawrie, The Queen Elizabeth Hospital
170	P25	ACTH secreting neuroendocrine tumour of the rectum demonstrated on 68Ga- DOTATATE and 18F-FDG PET imaging Nicole Sorensen, Concord Hospital
171	P26	An Investigation Into The Current Role of Nuclear Medicine Scientists and Positron Emission Tomography (PET) With Diagnostic Computed Tomography (CT) Ingrid Holmes, Queensland Health
182	P27	Automated 18F-Fluoroethyl Tyrosine production: first year experience Alireza Aslani, Royal North Shore Hospital
183	P28	FDG PET/CT scanning - A Useful Approach to Scanning Bladder Cancer Mehrdad Ghasemzadeh, Royal North Shore Hospital
185	P29	Incidental 99mTc-HDP Uptake in a dominant thyroid nodule on bone scan Aaron Rose, Concord Hospital
188	P30	Camurati-Engelmann Disease - the role of Nuclear Medicine in diagnosing this rare disorder Rachael Dobson, Royal Adelaide Hospital
195	P31	18F-FDG PET Scanning in a Patient with IgG4 Disease Kari Hughes, Royal Adelaide Hospital
197	P32	Aorto-Enteric Fistula in a Gastro-Intestinal Bleed Study Kari Hughes, Royal Adelaide Hospital
199	P33	Tumour Induced Osteomalacia (TIO) due to mesenchymal tumour demonstrated on Ga68-DOTATATE PET/CT Nicole Sorensen, Concord Repatriation Hospital
206	P34	FDG PET/CT scan lends clarity in management of patient diagnosis Luke Baker, Austin Health

207	P35	68Ga-HBED-PSMA GMP Quality Control: From Research to Commercialisation Shane Akkermans, SAHMRI
208	P36	Implementation of modulated low dose CT for PET/CT scans to reduce radiation dose to patient Wesley Ng, Austin Health
209	P37	The treatment of liquid radioactive iodine for patients with thyroid cancer who have a percutaneous endoscopic gastrostomy in situ: a case study Dawn Mathers, Flinders Medical Centre
210	P38	A case of radioiodine uptake in a donor graft site following Iodine(131I) ablation treatment - in a patient with papillary thyroid cancer Deborah (Kate) Calnan, Royal Adelaide Hospital
212	P39	Validation of the normal ranges for Dual Head Geometric Mean DTPA renal scans Maria Laura Sam, Westmead Public Hospital
213	P40	The pregnant PET patient: A case study in minimising radiation exposure to the fetus Danielle Nelson, Westmead Hospital
214	P41	A Facility Reference Level for CT Coronary Angiography Jean Elamrousy, St. George Hospital
216	P42	Nivolumab induced Polymyalgia Rheumatica (PMR) findings in 18F-FDG PET/CT Kunthi Pathmaraj, Austin Health
217	P43	R-L Shunts, PE and the V/Q lung scan Tess Smith, The Queen Elizabeth Hospital
221	P44	Unusual Splenic Finding on Ga-68 PSMA Scanning for Prostate Cancer Michael Kitchener, Dr Jones & Partners
222	P45	Lowering the Noise of Iodine123 Imaging: Collimator Comparisons Christopher Travis, Queensland Health
223	P46	Changes in Glomerular Filtration Rate (GFR) following Peptide Receptor Radionuclide Therapy (PRRT) Rachel Edison, Royal North Shore Hospital
224	P47	RadPi: An affordable open-source area radiation monitor Steven Crossley, Sir Charles Gairdner Hospital
227	P48	Paediatric Whole Body PET-MRI, early experience HB Toh, Royal Melbourne and Austin Hospitals
228	P49	Influence of CT exposure and reconstruction parameters on PET quantitation Christopher Reece, Prince of Wales Hospital
234	P50	A case of true positive progress PET studies in Primary Mediastinal B Cell Lymphoma (PMBCL) while subsequent CT guided biopsies were negative M. Mustafa, Wollongong Hospital
220	P51	Enhancing contrast resolution of PET/CT images to increase lesion detectability Jessica Welch, Austin Health

219	P52	Staff Whole Body Dose Assessment During Lutetium-177-Dotatate Therapy of Neuroendocrine Tumours Elyse Langeluddecke, The Queen Elizabeth Hospital
102	P53	The Application of the Appropriate Use Criteria for Myocardial Perfusion SPECT with Correlation to the Angiographic Results: Experience in Single Center from Eastern Taiwan Yu-Hung Chen, Tzu-Chi General Hospital, Hualien, Taiwan
147	P55	Routine intravenous Frusemide administration during Ga68-PSMA PET Study reduces physiological urinary tract activity and improves scan interpretation Kirk Rostron, Hunter New England Imaging, Newcastle
161	P56	Spontaneous Intracranial Hypotension (ICH) caused by Cerebrospinal Fluid Leakage Detected by 99mTc-DTPA Cisternography Rhonda Benson, Liverpool Hospital
211	P57	The electrician's boot: a primary bone lymphoma of the medial cuneiform Melanie Crowther, Western Private Hospital
191	P58	The prognostic value of pre-treatment dual time point F-18 fluorodeoxyglucose positron emission tomography (FDG PET) with computed tomography (CT) in patients with carcinoma of the uterine cervix Daniel Hwang, University of New South Wales
192	P59	Prostate Cancer, PSMA and Pulmonary Nodules/Metastases Michael Kitchener, Dr Jones & Partners
196	P60	Recognition of Autoimmune Adverse Effects of PD-1 and CTLA-4 Inhibitors on 18FDG PET-CT Imaging in Metastatic Melanoma Patients Nadya Kisiel, Peter MacCallum Cancer Centre
181	P61	A Rare Case of Merkel Cell Carcinoma Cardiac Metastasis causing Cardiac Tamponade: Review of the role of FDG PET in Merkel Cell Carcinoma Murray Di Loreto, Sir Charles Gairdner Hospital
180	P62	High yield [18F]FET production on AllinOne (Trasis) at commercial scale Thomas Vergote, Trasis SA
178	P63	First single-use cassette for the automated high-output production of [11C]Methionine Thomas Vergote, Trasis SA
174	P64	Subcutaneous F18-FDG PET/CT uptake Shahroz Khan, NSW Health
136	P65	Evaluation of the impact of post-ablative radioiodine remnant uptake in thyroid cancer on the incidence of iodine avid tissue at first follow up and abnormal thyroglobulin Shane Lee, Barwon Health
117	P66	Role of screening bone scintigraphy in patients with HCC: a single centre retrospective case study Dhruvbhai Patel, Sir Charles Gairdner Hospital
112	P67	Australian National Diagnostic Reference Levels for Nuclear Medicine Toby Beveridge, ARPANSA
109	P68	A quantification assessment of SUVmax, SUVmean, and SUVpeak of PET-CT examination of tumor response to therapy Subhash Kapur, National University Hospital

- | | | |
|-----|-----|--|
| 131 | P69 | Patient Preparation Prior To F-18-FDG PET/CT Imaging For Detection Of Cardiac Sarcoidosis
Ratna Koyyalamudi, Prince of Wales Hospital |
| 203 | P70 | The Effect of 99mTc activity on Positron Emission Tomography images
Orrie Dancewicz, Royal Brisbane and Women's Hospital |
